

"Color My World Music" to be Presented

Rainbow Rhythms singing group.

The singing groups under the direction of Marilyn Abney will be presenting their Spring Concert, "Color My World Music" on May 18th in the Wasatch High School Auditorium at 7:00 p.m.

The evening will be filled with music from Country, Broadway, and Disney. There will be individual solos, trios, duets and more. The Heber Hoedowners will perform with Rhonda Rose as

co-ordinator and Dennis Cobia as instructor, and also the Wasatch High School Marching Band under the direction of Greg Hexem will be present.

The singing groups, ranging in ages 3 to 14, will be the featured part of the concert. The Rainbow Rhythms, ages 5 to 10, have been active for four years. They have been preparing and practicing hard to polish their numbers. The Kotton Kandy Kids, ages 3 to 5, were started in January and will steal your hearts. The Sunny Delights, ages 10 to 14 also started working together in January and add spice to the evening with their song and dance routines.

These singing groups have been performing throughout the year at parties and special programs. They have performed at the hospital, care center, schools, shopping malls, church functions, and the Homestead. The concert is the culminating highlight of their year.

Members of the singing groups will be selling tickets, or tickets may be purchased at the door. The prices will be \$6.00 a family, \$2.00 adults, and \$1.00 children and students.

Special thanks go to Diane Slater and Kathy Buell who accompany the singing groups.

The evening promises to have something that all ages will enjoy. Plan to attend and let us "Color Your World with Music!"

New Library, Yes!!

Interest Payments, No!!!

nce a Success

Many were the pleased remarks heard, such as: "Let's keep this activity going." "I'm going to bring some special friends next Friday." "It's so good to be back dancing in this hall." etc.

Only thing we, as an inexperienced committee, didn't realize was how many people it took to pay a \$300. orchestra. These dances weren't intended to make a profit but we do need to pay expenses. We will have to experiment a bit so for this Friday night's dance the tickets will be \$1.50 per person.

Wasatch County does need a new library. When it is built, no family will use it more than mine.

If the figures are accurate the library will cost the average homeowner approximately \$.80 per month. At that figure, which seems so reasonable, why extend the payments out for 15 years and pay so much interest?

Assuming a \$990,000 bond at 15 years and at 16% interest (a fair assumption) the interest on our library will be more than the actual bond. After 15 years we will pay more than one million six hundred thousand dollars (\$1,600,000.00) in interest on a \$990,000.00 bond. Back in the 60's governments didn't pay the banker nearly so much in interest because it was probably less than half that figure for a similar structure.

and help it to cost one million dollars less.

While \$12.00 per year per household for seven years seems reasonable, - just consider the beauty of knowing the library could be paid-off in one year just by the average household's contribution of \$5.00 per month! In such a case, county fundraisers could offset the tab. The interest on paying off the library in one year would only be \$88,000 versus the \$1,600,000.00 the county now proposes. None of the \$1,600,000.00 goes anywhere but out-of-state to large Eastern banks.

Proponents of long-term bonding now often use the excuse that inflation will help pay off the bonding because \$.80 per month by the year 2000 will be more affordable and \$1,600,000.00 in
